

To see who is playing in a tournament:

Pools are sent directly to the club director. The start time for the tournament is in the notes on the tournament. If you would like to see the other teams accepted to the tournament go to: <https://advancedeventsystems.com/> . At the bottom of the homepage you will see **participate**, select **Current Event List**. In the filters at the top make the following selections:

Event Affiliation – USAV

USAV Region – Keystone (typing a k will make it pop up)

To view the notes click on the tournament Name. Scroll down and click on the **+** on the bar labeled **Event Information**.

The tournaments are listed chronologically. Once you find the tournament you want click on **teams** to the right. This will bring up the list of accepted teams.

To view rankings:

From the AES homepage at the bottom go to evaluate and click on **AES Power Rankings**. You can only select girls at this time. Step two: Choose the division (age) you are interested in. Step three: Choose Keystone. Then choose which rankings you are interested in. At the top you can type the team name or if you are unsure you can just look down the list. If you do not see your team it may be that there is no information entered for them. If you click on the team name you will see their event history and other information about the team. In Event History, if you click on the **+** you will see the results from that tournament if they have been entered.
