

Dear Club Administrators,

Please make sure that any and all adults working with juniors have completed their Safesport training. Many of these adults, including your coaches, have Safesport certifications that will expire on October 31, 2018. You will NOT be able to roster your coaches until they have a Safesport certificate that is valid for the entire 2018-19 season. Directions for Safesport training can be found on the [Safesport](#) page of our website.

As club administrators, you may view their current certifications and expiration dates by logging into your Webpoint account, selecting My Club > Club Members and then clicking onto their individual account. Let me know if you have any questions.
